UNIT OUTLINE
Unit name: Statistics for Academic Purposes

Unit number: 900011

Coordinator: Michael Casey

Session: 2019.1

Handbook summary: This unit is designed to prepare students for study in statistics at first year university level. The unit develops those skills specific to the statistical requirements of further study in the areas of arts, business, science and the humanities.

Credit point value: 5

Prerequisite/s: N/A

Corequisite/s: N/A

Unit incompatible with and not to be counted for credit with: N/A

Assumed knowledge: Year 10 Mathematics or equivalent

Unit level: Level Z — Non-award

Attendance requirements: Students are expected to attend at least 80% of classes. Educational research consistently demonstrates that this attendance level is associated with a high likelihood of achieving a passing grade.

Enrolment restrictions: Enrolment is restricted to The College students.

Learning outcomes: On successful completion of this unit, students should be able to:

1. demonstrate an understanding of the statistical terminology and use the correct notation
2. collect, organise and display data
3. calculate descriptive characteristics and describe data sets
4. calculate and describe the relationship between two variables and use simple linear regression to predict or estimate values
5. calculate probabilities
6. apply appropriate statistical methods to analyse data and make inferences, and
7. use computer software to display and analyse data.
Unit content
In this unit students will learn about:

- statistical terminology and methods of collecting data
- organising and displaying data
- measures of central tendency, variation and spread
- correlation and simple linear regression
- probability
- binomial distribution
- normal distribution
- sampling distribution
- estimation, and
- hypothesis testing.

Mode of delivery
This unit is taught on a face-to-face basis and includes six hours of classes per week. In addition, students will be required to access vUWS regularly, in order to download additional learning material, and to check for any announcements about the unit that may be posted there.

Online learning requirements

Essential text

Further resources

Essential equipment
- A College-approved non-programmable scientific calculator with statistics mode (a list of approved calculators can be found in the learning guide)
### ASSESSMENT ITEMS AND WEIGHTING

Assessment for this unit will be based on the following components:

<table>
<thead>
<tr>
<th>Task</th>
<th>Weighting</th>
<th>Learning outcomes assessed</th>
<th>Mandatory task</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Intra-session exam 1 (1 hour)</td>
<td>10%</td>
<td>1–3</td>
<td>Yes</td>
</tr>
<tr>
<td>2. Intra-session exam 2 (1 hour)</td>
<td>20%</td>
<td>1, 2, 3, 4, 5 and 7</td>
<td>Yes</td>
</tr>
<tr>
<td>3. Online quiz (30 mins)</td>
<td>10%</td>
<td>1, 2, 3, 4, 5 and 7</td>
<td>Yes</td>
</tr>
<tr>
<td>4. Report (300 words plus mathematical calculations)</td>
<td>20%</td>
<td>1–7</td>
<td>Yes</td>
</tr>
<tr>
<td>5. Final exam (2 hours)</td>
<td>40%</td>
<td>1–6</td>
<td>Yes</td>
</tr>
<tr>
<td>Total</td>
<td>100%</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

For details of assessment due dates, please refer to the learning guide for this unit.

All marks will be determined in accordance with The College Assessment Policy.

All assessment tasks are mandatory unless otherwise specified. Should a student fail to attempt/submit the first formal assessment task in a unit, they will be deemed to be at risk and will need to follow an intervention plan in order not to receive a Fail Non-Submission (FNS) grade. However, failure to attempt/submit all other mandatory assessment tasks will result in an immediate FNS grade for the unit.

A minimum overall mark of 50% is also required to pass the unit.
